PROFILE

- 33 year old clinician with advanced medical training and expertise with 8 years of experience in the field and Exec MBA from IIM Ahmedabad
- Diverse and insightful of experience in healthcare delivery
- Strong leadership, communication and analytical abilities
- **Currently working as Consultant (Healthcare Initiatives) with a leading microfinance institution, designing efficient health delivery systems for rural & urban poor**

EDUCATION

Postgraduate Programme in Public Management & Policy, an Executive MBA program- Indian Institute of Management, Ahmedabad (Includes two month overseas exchange programme at the **Georgetown public policy Institute, USA**)

The Programme is focused on the management of public enterprises and on the complexities of policy formulation and implementation that constrain them. Public enterprises, which have large public interface also include health care which in the present times has largely become market driven, and is destined to grow rapidly. This programme therefore assumes great relevance for healthcare professionals who intend to fill the gap between market driven private sector and public health which is largely driven by the government.

Doctor of Medicine M.D (Anesthesiology) – Institute of Medical Sciences, Banaras Hindu University, Varanasi, India

Bachelor of Medicine & Surgery M.B.B.S - R.G Kar Medical College& Hospital, Kolkata, India

STRENGTHS & CAREER GOALS

- Excellent academic background and rated high on clinical skill sets, well Versed with Critical Care and Anaesthesia procedures & practices
- I have been able to gain experience in different kinds of organizations which include government and private Hospitals in India, as well as, in one of the most efficient & advanced healthcare organizations in the world during my overseas stint and this has given me a wider perspective.

Mohit Kumar

- Unique combination of Medicine and PGP-PMP- An understanding of nuances of public management & policy has become important for physicians especially in the face of unique challenges which healthcare faces today. Healthcare organizations also demand a fine balance between profits and social obligations to be efficient and viable in the long term. The PGP-PMP Programme coupled with advanced medical training creates such a foundation for clinician-managers who wish to take leadership positions in healthcare organizations.
- Versed with the business aspects of firms through course like Financial Management, Accounting, Operations, Strategy, Marketing and Customer management, Organizational systems and behavior, Management of IT Infrastructure, Micro and Macroeconomics, Human resource management, Quantitative approaches to decision making and Data analysis.
- Versed with nuances of Public Management & Policy through the PMP Module which has courses like Economic Environment and Policy, Economic Development, Economics of Regulation, Innovation and Technology Policy, International Economic Relations, IT Strategies for Governance, Law and Public Management, Public Finance, Public Organization and Management Theory, Public Policy Formulation and Implementation, Management of public private community partnerships etc.
- **Concentration in Infrastructure Development & Financing** - deals infrastructural issues in various sectors like Power, Transport as well as health and the nuances of Project and Contract Management, Carbon Finance, Negotiation Management, Legal Issues in Infrastructure etc.
- Exceptional Communication and analytical skills, Ability to take calculated risks and explore new avenues of growth
- **Strong desire to engage with the burning health issues faced by the country and be a part of the change process without which no development is possible.**
